Subject: RE: PFAS Action List

I am not exactly clear if our GenX specific assessment is still part of this overall effort (it was one of the initial “project plans” and clearly it will inform some aspects); hence, I’ve put some items in related to it, but you can remove it you think too specific

Tala R. Henry, Ph.D.
Director, Risk Assessment Division
Office of Pollution Prevention and Toxics

Subject: PFAS Action List

Jeff – can you and Tala take a look at the attached (this is material in our invite to Monday’s meeting) and let me know if you have comments on the actions? The schedule was to have comments on the draft actions by the 13th, if you can get me your thoughts today that would be great. I’ve also cut and pasted the full schedule below. Thanks! Charlotte

Proposed Action Strawman

The following proposed actions are for consideration. Remove and/or add activities considering the steps required to complete each activity, available resources, priority, and the time required to complete the task. The actions should be listed as those expected to be completed by June 30, 2018, December 31, 2018, or during 2019. Programs, regions and offices that agree with a proposed action related to their program will be expected to complete the work.
